---

Medium of Image       **Graphite**

---

Price of Image         **\$300**

---

Artist Statement       **The sound of Om...a sound used in meditation....and art to me is meditation in motion. This drawing is a process of bring the inner world out into the outer world, letting go of preconceived images, thoughts and feelings and connecting anew to my heart. By listening to the flashes of inspirations in my heart, I find my own journey. This journey led me to find inspiration in Arabic Architecture and in the pillars that are in the gardens of the Planting Fields in Oyster Bay.**
