Jazmin Corrujedo

Figures In Our Dreams

Acrylic on Canvas

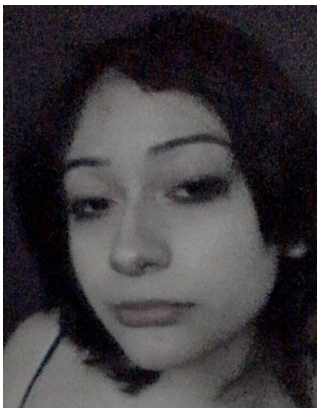

41" x 29"

Hicksville Union Free School District

Price: NFS

Artist Statement

Evoking a sense of eeriness and disillusionment is something I am stylistically attracted to. When creating my piece, I introduced a set of ominous figures to induce overwhelming feelings of fear and anxiety. I drew upon the concept of these distorted figures who lurk in my dreams. At first I paid no attention to the outline of these emotionless figures. As I began to explore these dreams and think about how I am connected to them, I began to realize they represent the dissociation I have with myself and this world. The mannequins I studied for this piece are all different but in the end they are ultimately the same. Their empty shells of a figurative form can never hold the life of what they are trying to represent. They remain emotionless and detached from the world, lonely and detached from all those who pass them by.

Bio

My name is Jazmin Corrujedo and I attend Hicksville Highschool. I was born in New York and grew up watching classic horror films from a very young age. The eerie emotive and the alluring color schemes of these films influenced my artistic manner today.

Julia Crapanzano

Tethered to the Dark
Acrylic on Canvas
18" x 24"
South Huntington

Price: NFS

Artist Statement

Tethered to the Dark is a piece portraying the dark, and macabre atmosphere of Halloween. The Holiday, at its roots, is a day most people challenge their fear and seek the darkest parts of the woods. We venture out to confront ghouls, monsters, ghosts and beasts and enjoy the aesthetic of autumn in its prime. Halloween is built by the nostalgia of our scary movies, music and costumes; and every year on this night, neighborhoods are lit up with their spooky decorations and give us a day reserved for frightening wonder.

Bio

Ever since I was very small I loved drawing, painting and imagining stories to go with those drawings and paintings. For the past few years, I've always found time to draw in a notebook, doodle on math homework and even fill copious amounts of science notes with pen drawings of every kind of dragon I could think of. Thankfully for my parents, they realized the interest I had in art, and let me pursue it with some classes over summers, buying me all the supplies I needed, and letting my imagination run free. For the past few years I have gotten into many areas of the art world, including animation, comics, digital design and sculpture. I aspire to work towards a career in fine arts, more specifically art education, and I hope to keep growing and developing as an artist as I move towards college.

Griffin Gurewicz

Lurking
Digital Photography
12" x 16"
Syosset

Price: NFS

Artist Statement

"Lurking" conveys the feeling of a thriller movie. It depicts a teenage girl who is being haunted by an evil being. When she looks into the mirror, she doesn't see herself. Instead, she is greeted by an evil doppelganger. The evil creature is *lurking* around her and she can't find a way to escape it.

Bio

Griffin Gurewicz was born on March 12th, 2005. He is in 11th grade attending Syosset High School. He has taken photography classes for two years, starting in 9th grade with digital photography. Griffin has a passion for photography and to further increase his skills, he went into advanced digital photography the following year. Now in 11th grade he is taking darkroom photography, which will open the doors for a new art medium and more ideas. He has been through times when life feels colorless and bland. Photography is a way to bring color back into the picture and reminds him everything is going to be okay. Photography especially is a way to capture not only a moment but also a feeling. He wants the people who are viewing his art to not just see the obvious but to feel like you're in the image. People always say "you don't know what it's like to experience something if you have never experienced it". Griffin's art is a way to give people the feeling that you will never feel unless you were actually there.

Captured Memories
Color Pencil on Paper
23" x 18"
Harborfields

Price: NFS

Artist Statement

"Captured Memories" is a recountment of the staple Halloween traditions I've been a part of throughout my life, summarized with colored pencils. Though Halloween was never necessarily a huge holiday for my family, traditions like apple picking with our extended family and visiting the pumpkin patch every year were enough to get my sister and I excited for the weather to turn colder. The prompt "What does Halloween mean to you" helped resurface some of these memories, which is what I chose to display in my piece.

Bio

I am 15 years old, and ever since I was very young I've had a connection to art. My grandmother was an art teacher, and though she retired before I was born, she would still give me lessons at her dining room table. I've since moved on to teach myself, however she remains a big inspiration for why my art means so much to me.

Jacob Medina

Blind Eye
Charcoal and White Chalk
10" x 8"
Commack

Price: Best Offer

Artist Statement

In my art piece I was mostly inspired by Salvador Dali and his surreal works of art. To accomplish this surreal like art piece, I used charcoal and white chalk pencil. When I created this, I really had no intention of any hidden meaning to my work. I was mostly intrigued by the beauty of a random picture of the girl that I sketched who seemed emotionless. I thought her lack of expression gave an eerie tone which I really enjoyed. This piece showed how much I improved as an artist over the years and I am proud of the outcome.

Bio

My name is Jacob Medina, I am a 15 year old male, and I go to Commack High School. A few hobbies of mine that I enjoy are gardening and sketching. I find these two hobbies calming and I am able to express myself.

Kasey Mulholland

Re-emerging Memories

Mixed Media

23" x 18 1/2"

Manhasset UFSD

Price: NFS

Artist Statement

My piece, "Re-emerging Memories", was inspired by the positive impact my great-grandmother had on the life of my mom, sister, and myself. Everyday I am constantly reminded of her unforgettable and meaningful presence by the legacy she left behind. The idea behind my painting was to make it appear as though I was looking back on the memories of my ancestors and using their influence in my life. I began my piece by collaging old black and white photographs of my family. I then glued the photos to a black board and glazed the collage with a liquid medium. Using a white colored pencil, I sketched the outline of my portrait and painted over the sketch with oil paint. I added petals made out of tissue paper to the surrounding border and another layer of matte medium to make the portrait stand out.

Bio

My name is Kasey Mulholland and I am from Manhasset, New York. I am a senior at Manhasset High School and I just finished my AP portfolio this May. I hope to pursue a major in art in college to be able to continue my passion. My favorite medium to work with is oil paint and a majority of the inspiration for my pieces comes from feelings of nostalgia and my family.

Sometimes I cannot put my feelings into words, which is why I love art so much. It allows me to express those feelings I cannot say aloud because art is a universal language; it allows us to connect to others stronger than words. My love for art, especially photography, has been present ever since I can remember. I love using my creativity to express myself in unique ways whether it be painting, drawing, photography, and even creative writing.

Charlotte Oser

Creepy Crawlies
Digital Photography
16" x 20"
Commack High School

Price: \$125

Artist Statement

Creepy Crawlies is inspired by the idea of a photo project based on geometric forms and patterns. A complex layout of an assortment of images formed into a photomontage of both original and found images. The movement of the tarantulas entering the frame represents "new becomings" into my life. The spider webs representing all the tough, "sticky" moments of when you're feeling entangled and have no way to escape, like a hopeless bug. This connects to the theme of the show "Nightmare On Main Street" because life itself is full of scary things because of the uncertainty of how future obstacles will look like until you're living in the moment. Inspired by a variety of elements including my birthstone color, places I want to travel to, my spirit animal, and subjects that imprint on my identity. Creepy Crawlies was a deeply personal piece of artwork.

Bio

My name is Charlotte Oser, I'm 15 years old and I have been creating art for as long as I can remember. I love learning and expressing through art, it's always fun when I can learn a new technique or way to do something that gets me to where I want to be. I am a bit of a perfectionist, but never afraid to make mistakes because that is what art is all about, learning for our mistakes and finding creative solutions. I enjoy creating pieces that have meaning and love experimenting and trying new ideas as well.

Gianna Purpora

Death in Disguise

Acrylic on canvas

14" x 10"

Harborfields Central School District

Price: NFS

Bio

At the ripe age of four years old, I started my journey into the arts with simple squiggles and circles. I would always color outside the lines when given any sort of coloring book and filled numerous sketchbooks with anatomy figures and drawings of nature. From then on, I pursued my interests for the arts in the form of passion, using only the surroundings as a foundation to build upon my work. When I became entangled in art, I started to see life in a whole new scale of colors. It opens my eyes to the possibilities of a new world created just by the stroke of a pencil. And to me, that's the most magical thing.

Solemn Hands

White Pencil and Colored Pencil on
Black Paper

16" x 14"

North Shore Schools

Price: NFS

Artist Statement

I have always been drawn to the human form and I love making art incorporating it side by side with nature. I created a dramatic contrast between the white of the bones and black background and incorporated a unifying greenery. The black and white emphasizes my use of greenery to demonstrate life versus death. Yet I find in my piece that the skeletal hands do not give off a scary or an anxiety full image; it is more of a somber and quiet feel which is why I felt the use of "Solemn" was most appropriate.

Bio

Hello, I'm Alli. I am currently a senior in high school. I have been doing art since I was young and it has always been a passion of mine. To be able to put my creativity into a physical form is what I strive to do. I want to be able to convey the first emotions I have when I start making my piece because I feel that is what comes across most prominently. I want my arts first impression to be a reflection of that emotion.

Sea of Demons

Pen & Ink on Paper

Artist Statement

The title of my artwork is "*Sea of Demons*". My artwork, which was created in pen and ink, is based on one of the layers in the nine circles of the netherworld. The creatures that are represented in the work are sea creatures and demon-like beasts. I mainly focus on lines that create a fiery form and textures of the underworld flames. This is the Ring of Envy where those who do hatred acts go. I am proud of myself and how hard I worked to make this piece. Drawing is something that calms me and I can put my ideas on paper. That is why I love art.

Bio

Hello, my name is Sebastien Simon and I love to draw. I was born in Queens, grew up in Huntington and was born with Autism. My classes were generally small and when I was in third grade, I knew I loved art. I would always draw my favorite characters and felt connected to illustrating them. Silent Scream

Digital Print

13" x 19"

Plainview Old Bethpage

Price: \$75

Artist Statement

I wanted to show the concepts of fading and losing it. You cannot physically fade but you can feel that you don't belong or the "you" that you know has disappeared. When I look at my photo, I see the feeling that everything is unraveling. That no one can hear your screams for help, they are silent. I love taking photos that will encourage the viewer to create their own meaning and that is what is in this photo. I used a slow shutter speed then asked my model to shake her head and yell, I told her let all her emotions out. The combination created 'Silent Scream' - a cry that nobody seems to hear.

Bio

My name is Lindsay Slabowski and I'm 15 years old. I live in Plainview, New York, and I am in my sophomore year of high school. I have been taking photography since freshman year-- this year only being my second year. Last year was extremely hard for me having to do synchronized learning in a pandemic, spending freshman year alone, and adjusting to the new workload. Even while school was extremely hard, photography was always there-- a class I could look forward to. Photography was (and still is) a break from classwork that stressed my brain and a break from overwhelming tests that allowed me to express my creativity.

My work explores the fear factor associated with Halloween. Ever since I was a little kid, I have loved Halloween. Watching horror movies and decorating the house was my favorite. I wanted to bring a similar experience to my photography. For these photos, my friend and I went into the woods with old props and decorations. Our goal was to create a scary scene for the viewer. The final image shows a person silently watching, half hidden in the woods, waiting to terrorize the unsuspecting traveler.

Bio

I am a senior at Plainview-Old Bethpage JFK High School and currently in AP 2D Design in photography. My favorite type of photography is portraits, I feel it captures more than photographing objects.
